THE TVAN[®] MK5:

The new Tvan[®] MK5 shares the same off-road 'DNA' as its predecessors, with several huge improvements including a new taller roof; increasing the cabin space and giving more head room above the bed. All models now come packed with more technology and further refined electrics, 2 kitchen configurations and more storage - But not at the expense of light weight touring.

The principal features of the Tvan[®] such as the quick erect tent, stored in its own compartment (not on the bed) and the dynamically styled body have all been refined and improved with an emphasis on ease of use and reduced set up times.
