

# TVAN®

## THE TVAN® CONCEPT:

The all new Tvan® Mk4 shares the same off-road 'DNA' as its predecessors, with several improvements including larger cabin space, more head room above the bed, refined electrics, 2 kitchen configurations and more storage.

The principal features of the Tvan® such as the quick erect tent, stored in its own compartment (not on the bed) and the dynamically styled body which today still continues to set it apart from the rest, has not been compromised.

Each Tvan® model retains the same key characteristics such as MC2 Suspension®, hot dipped galvanised chassis, durable riveted steel and aluminium construction of the cabin and lower body lockers, aluminium rear folding platform (deck), off-road electric brakes and fully articulated off-road coupling etc.

All other specifications, options and accessories are up to you. This process allows you to customise your Tvan® to match your tow vehicle's capabilities, your camping preferences and budget.

The models are identifiable by their highlighted colours; Yulara (blue), Tanami (green), Canning (red) and Murrarji (orange).

Simply select a Tvan® model that best suits your needs, add options and you are on your way.

## STANDARD SPECIFICATION

### SUSPENSION, CHASSIS AND BODY:

- Industry leading off-road hot dipped galvanised chassis with genuine military grade MC2 Suspension®
- Proprietary aluminium sandwich panel wall construction
