TRACK. 74

YOU'RE THE CONDUCTOR, YOU'RE IN CONTROL:

Track has drawn inspiration from the creative musical processes of composition and performance to; not only name the individual caravans in the TRACK T4 Collection, but also in anticipation for your input to the process.

We all understand that a composer's greatest works will often gain richness, colour and emotion as they are interpreted by a conductor and musicians.

You and your family are the conductor/musicians and your interpretation and customisation of the TRACK T4 Collection will not only deliver your needs, but will also make it even more individual and engaging.

Track has anticipated your desire to create a special space for you and your family and so has created its most flexible range of options ever, so that the opportunities for individual interpretation are broad and many, right across the T4 Collection.

Let's start with which T4 is right for you.

CONCERTO

A Concerto embraces both the orchestra and the soloists, just as a family is a collective it is also made up of individuals.

The Track Concerto is unmistakably a family van. It includes sleeping accommodation for up to 6 (2 adults, 2 adolescents and 2 small children) with up to 6 seats in its dinette.

It features the Track Premium kitchen which is deployed under the extensive awning, making cooking for the whole tribe a breeze.

*54MPH*DN4

A Symphony refers to a piece with multiple distinct sections but we choose to take meaning from the earliest notion of symphony, that an instrument might produce multiple sounds simultaneously.

Our interpretation is that the Track Symphony is the most flexible of our models. It is adaptable from a couples van, to accommodating small children, from inside cooking, to outside cooking, with many cabinet, drawer and robe storage options, to mix and match.

Older children are easily accommodated with the inclusion of the family room, with space for bunks, which along with the shower tent extends from the rear hatch of the van.

RHRP5004

A Rhapsody, in music, is a one-movement work that is episodic yet integrated, free-flowing in structure, featuring a range of highly contrasted moods, colour and tonality, with an air of spontaneous inspiration.

The Track Rhapsody is first and foremost a couples van, free from compromise. It offers the most comfortable and personal living space for 2, with its north/south bed layout, opulent internal ensuite and internal and external kitchen.

You will be supremely comfortable indoors, even as you travel to explore the great outdoors.
